

WELCOME

Dear Guest,

in giving you the warmest welcome we invite you to read the following few pages which may be useful to you and also to offer you some suggestions to make your stay here even more enjoyable. Please do not hesitate to ask for our assistance to satisfy any need or desire. We appreciate every suggestion and would be grateful if you would leave a message in our guest book, which can be found in the breakfast room.

AGRITURISMO. This term both identifies and differentiates us from other forms of hotel; we therefore hope to make you feel part of our welcoming and warming rural setting.

KEYS. please take your keys with you so that you can come in and out as you wish, there isn't a concierge as we're on a farm! Though please remember to leave the keys with us when you leave.

CHECK OUT. Please leave rooms free before 11 a.m.

PARKING. the Agriturismo has a loading and unloading bay in the courtyard and a main parking area on the north-east side of the house, to which access is from the shingle road to the north of the boundary wall. We are in a quiet and safe village but we ask you to not leave any valuable items in your car.

NIGHT ACCESS. The large gate to the internal courtyard is closed at night and in our absence, but you are always able to access the main parking area at any time.

SHUTTERS AND WINDOWS. The wind from the hills in which we are located often blows up quite suddenly and can become quite strong and violent (it is one of the secrets of the prosciutto of San Daniele);

because of this we ask you to close the shutters during the night or when you are away from your room so as not to disturb the tranquility of the village.

HEATING: the heating can be individually controlled in every room. You can decrease or increase the temperature by using the switch on the thermostat. We remind you that the heating won't work when the windows are open!

AIR CONDITION. Present in some rooms, it starts and adjusts by remote control. Remember that with the windows open the system does not work!

ECOLOGY. Caring for the local environment is fundamental in the way in which we run the Agriturismo. For example, the central heating uses wood from our forests and our farming utilizes ecologically compatible techniques. We ask you to share our efforts in maintaining this beautiful area.

BREAKFAST. A buffet breakfast is usually served between 7:45 and 9:30; but to let you enjoy the fragrance of freshly baked bread or freshly sliced salami we ask you to give us a more precise time.

HALF BOARD. Half board dinner is served by prior agreement and consists of three courses and vegetables-salads buffet, the price is 17,00 Euro per person. For children we have special menù for 11,00 Euro. During themed or tasting evenings, menu and price are those of the evening.

POOL. A special regulation that we invite you to respect is indicated within the pool area.

ACTIVITIES IN THE AGRITURISMO. Accompany us in the rearing of our deer herd, attend to the animals, harvest the vegetables, walk through the gardens, cook a traditional meal with us or relax in the sun: you are spoiled for choice. A farm offers many possibilities every day ... what will you do today?

EXTERNAL ACTIVITIES. Golf, tennis, swimming, sauna and massage, skiing, fishing, rafting, canoeing, trekking, cycling ... they are all possible examples of the thousands of opportunities within a few kilometre radius, and can be arranged either by local organizations or by your self.

TRIPS AND EXCURSIONS. We are fortunately located in the middle of this beautiful region. There are more than fifteen driving-routes both along beautiful regional roads and off the beaten track, which you can follow to discover this enchanting and still quite hidden region.

PLAY-AREAS. A park equipped for our younger guests with slides and high-ropes etc. can be found only 100 metres from the Agriturismo. Ask us to show you the way.

LINEN. The bed linen are changed once a week and the towels are changed every three days. If however, you would like them changed before this, ask us, or leave the towels either in the shower or the bidet.

LAUNDRY: we do not have a dedicated laundry for guests, but we can certainly provide you with one of our washing machines. The cost is 3.50 euros for a wash.

INTERNET. It is possible to connect to the internet through our internal network, please ask us for information.

ANIMALS. Animals are only accepted by prior arrangement and only in some rooms. A supplement is necessary. (5,00 Euro per day or 10,00 Euro for large breeds / long haired).

RESTAURANTS. We can advise you on the best restaurants and rustic taverns where you fine dine or sample the local delicacies.

CAR HIRE. If you want to hire a car we can advise you on a few organizations with whom we work.

SMOKING. It is absolutely forbidden to smoke or use naked flames inside closed spaces.

THE "FRIULIAN FLAVOURS OF OUR HOME". For a present or a reminder of the region's gastronomy, why not take home with you a selection of our salumis, confectionary, jams and marmalades, wines or cheeses from the producers that we represent.
